CLC19 PROGRAMMING AND SHOW HIGHLIGHTS

Where is Canada's Silk Road? (Theme 1)

CLC19 features two themes, the first of which poses the question: Where is Canada's Silk Road? Canada doesn't actually have a Silk Road initiative like China's massive \$1 trillion One Belt One Road plan that is resurrecting the historic Silk Road concept in full force, but looking through that lens, where is Canada at with regard to trade policy as well as trade enabling infrastructure in its provinces and major municipalities? Don't miss seminars and keynotes like these:

- Where is Canada's Silk Road: Greater Vancouver
- Where is Canada's Green Road? Cannabis Logistics
- Where is Canada's Silk Road: Economic & Trade Outlook
- Where is Canada's Silk Road: Deciphering the Enigma that is U.S. Trade Policy
- Where is Canada's Silk Road: Calgary's Holistic Approach to Sustainable Logistics

The E-commerce Effect (Theme 2)

CLC19 also features the E-Commerce Effect which is rapidly becoming the 800-pound gorilla in the supply chain room as the so-called "Amazon Effect" takes further hold in an increasingly "on-demand" and "last mile" logistics marketplace. A series of seminars, presentations, and lunch keynotes will dive into these themes in a variety of ways, including:

- The E-Commerce Effect: Who are the Blocks in the Chain – Parts I & II
- The E-Commerce Effect: Distribution Logistics in the Age of E-Commerce
- Keynote Luncheon: Cargo Tech Leaders Roundtable - The E-Commerce Effect
- How 3PLs and Carriers can stay in the 'I want it and I want it now' delivery game
